

PELLET HEATER

Triple Black 6

The petite Triple Black 6 pellet stove features perfect heat output for a small space plus all the benefits of an ecological and cost-effective fuel. The Triple Black 6 is easy to use, programmable, clean, safe and offer a long burn time. Pellets are discharged automatically from the hopper into the grate to feed the flame. On and off times can be programmed (with automatic ignition) as well as the required temperature. And all in total safety.

There is an indicator mark to show low pellet supply and if you run out of pellets the system shuts down safely! Triple Black as the name suggests is a stylish black metal unit with will easily blend into any décor! Piazzetta Pellet heaters offer greater than 88% Thermal efficiency, which is substantially more than wood fire alternatives. And it has significantly lower emissions. Its heating with a conscience!

TECHNICAL DATA

• Firebox heat output kW	6.5
• Nominal heat output (min-max) kW	2.5 – 6.0
• Room heating capacity (min-max) m ³	100 - 175
• Nominal thermal efficiency %	90%
• Nominal consumption (min – max)	0.5 – 1.4
• Electric power consumption (W)	39 – 320
• Standard flue outlet Ø cm	8
• Hopper Capacity kg	10.5
• Dimensions W x D x H cm	49 x 45 x 96
• Stove weight kg	90
• Heating	Forced Air Ventilation

COLOUR

Grigio
Metallico

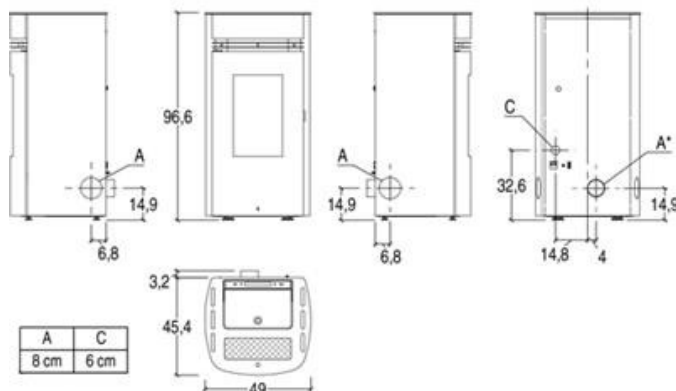

WHAT YOU NEED TO KNOW

Pellet Heaters like other heaters & stoves need to be installed by a licensed plumber or trained installer. Regular maintenance and cleaning will enhance the performance and life of your heater. We recommend 'RedHot' Wood Pellets for optimal performance.

GENERAL CHARACTERISTICS

• Cladding	Enameled Steel
• Top	Cast Iron
• Stove	Steel
• Firebox, Brazier & Baffle Plate	Cast Iron
• Door	Cast Iron, outer door in steel
• Door Handle	Enameled Steel
• Humidifier	Yes
• Standard Flue Outlet Position	Rear
• Optional Flue Outlet Position	Right and Left
• Multifunction Remote Control	Yes
• LCD Digital Controls	Yes
• Output Control Positions	4
• Programmable timer-thermostat	6 Daily time bands
• Ceramic Glass	Resistant up to 750°
• Glass Cleaning System	Clean Glass Air Wash
• Ash Drawer	Removable
• Low Pellet Indicator Mark	Yes
• Remote Stove SMS Texting or WIFI	Optional
• Energy Saving	Yes
• Eco Function	Yes
• Installation *	Wall – Corner

* Please refer to instruction manual for detailed installation specifications

www.piazzetta.com.au

Piazzetta Italy are the premier pellet heater manufacturer in Europe. Their unique patented design results in more efficient heating than any other product on the Australian market. Control at your fingertips - either by remote or from your mobile phone - that's convenience!

What makes a great pellet heater?

Like any burning or firing technology there is an innovated science behind the development of the technology. Piazzetta can demonstrate long term success in the pellet heater market and are committed to research and development of the best pellet heaters in the world. That's why their technology holds a number of patents and has the undisputed backing of university research to support their design. Piazzetta know that heating your home is about safety and warmth.

GREAT PRACTICALITY and CONTINUOUS FIRE TECHNOLOGY

Pellets are the ecological fuel par excellence. They are practical, easy to handle and to store and produce heat without harming the environment. Piazzetta pellet stoves guarantee self-regulating capacity as well as practical ignition and programming management.

MULTICOMFORT Saving in all comfort.

The Superior model remote control control over the temperature in the room where the stove is installed and fan speed. All other functions are operated by the LCD Screen

REMOTE CONTROL SYSTEM Switching on and off by SMS or WIFI.

Piazzetta heaters offer an optional remote control system that allows control of your heater, even when you are away from home, by sending a simple SMS or via WIFI.

CONTINUOUS FIRE More than 46 hours of burn time with 60kg of pellets.

Tests carried out in Piazzetta laboratories have shown that pellet stoves with a high capacity hopper can boast an outstandingly long burn time up to 4 days

ROBUST CONSTRUCTION Guarantee of sturdiness and durability.

With door, firebox and braziers up 15 mm thick, Piazzetta's are guaranteed to be structurally robust and durable.

AIR GLASS SYSTEM Ventilated ceramic glass.

Air flows constantly over the ceramic glass, which is heat resistant up to 750°C, and in so doing helps to keep it clean.

ECO FUNCTION Automatic power control of your fire.

The power level and intensity of the flame vary automatically when the set room temperature has been reached, thus avoiding unnecessary use of fuel.

EASY CLEANING Maintenance couldn't be easier.

The cyclic system for cleaning the brazier while the stove is in operation optimizes combustion and efficiency. Making weekly routine cleaning when the stove is cold much simpler and more straightforward.

IGNITION TEST Complete cycle test.

To ensure the highest quality, every Piazzetta stove undergoes stringent final testing and inspection before being placed on the market.

ELECTRONIC MONITORING Troubleshooting.

Piazzetta pellet stoves are constantly monitored by the electronic board so that you can always rest assured they are working properly. Any malfunction is shown with easy identifiable messages on the LCD display.

SAFETY Automatic re-start.

Piazzetta's innovative system ensures that in the case of a brief power outage or accidental door opening, the stove, after shut off will re-start automatically without your intervention.
